As early cables reported Americans lower abroad, the market opened at a decline of % to % per cent., the latter in Louisville and Nashville. The foreigners had selling orders in this stock, as well offerings very well, and when the builts took hold, improved rapidly. Sugar ran up from 107 to 108%. American Tobacco from 92% to 94%, and the general list improved \$400, per cent. Rock Island, Chicago Gas, New York Central, St. Paul, and Western Union were noticeably firm. The advance was stimulated by advices from Washington that Secretary Carlisle had stated that unless the Senate built became a law, an issue of bonds by the government would be necessary, which naturally strengthened the belief that the pop-gun bills for free sugar, coal, etc. will full. decline in sterling exchange also had a favorable influence on speculation.

In the late trading, Distilling and Cattle-Feeding was the main attraction, declining from 22½ to 20½ under heavy sales, on reports that the negotiations for a \$6.000,000 loan, required by the company to take spirits out of bond, had fallen through. The stock finally railled to 20% on a denial of these reports.

The general list closed.

CHICAGO ILL., August 15.—The scalpers had variations enough in the tone of the market and in the movement of prices to give them sufficient opportunity to turn over their profits or losses several times. It was not a broad market, but 734 the opening, the crowd were all playing the built's side. Then there was a rush to sell, then a rally, with another break, and the market closed weak and fractionally lower than yesterday. September wheat opened at from 55% to 55%c. and ranged between 55% and 55%c. Cash wheat was steady at unchanged prices.

Corn—There was a high curb on corn before the opening to-day, and a sensitionally buil market was generally stiming of the session, the orders to buy were enormous. The country was leading, but the shorts were keeping well up with It. After the orders in hand at the start had been executed, the bears perceived that they had no immediate cause for apprehension, and withdrew from the buying side. From that time until the close there was an irregular action. May corn opened at 514/254%c. sold between 53% and 53%c. and closed at 53%/253/25.—Ac. higher than yesterday. Cash corn was firm. Prices remained unchanged.

Outs were in touch with corn all through the day. The trade was light and lacked feature. There was no news to influence prices, and they were guided entirely by sympathy. September outs closed 4c. higher than yesterday. Cash cost were strong, averaging ½c. higher than yesterday. Provisions—As long as corn held strong there was no doubt in the minds of the traders as to the proper course to pursue in product. Nor was there when corn declined, as both the strength and weakness of the grain market were promptly reflectively by sympathy. September outs closed 4c. higher than yesterday. Cash cost were strong, averaging ½c. higher than yesterday. The trade was light and lacked feature. There was no news to influence prices, and they were guided entirely by sympathy. PORT OF WEST POINT, ACCUSE 15, 1894 dark leaf, 8; luge, 29. Total, 60 hogs-heads.

Loose sales to-day were of unusually poor quality, but prices were fairly good for the tobacco. Both bright and dark tobacco was on the floors.

The first lot of new bright Virginia primings from Prince Edward county was soid at Planters' warchouse to-day, and brought excellent prices.

The sun-cured sale on 'Change was one of the best of the season, and contained several packages of very line tobacco, which brought full prices, as did the entire sales. There were no rejections.

There was a good inquiry to-day for old tright wrappers, but very few sales were made. Several lots were, however, offered on, and may materialize by to-morrow.

Messrs. W. A. Adams, of Oxford; W. E. Meade, of Danville, and E. D. Christian, of New York, were here to-day, DEATHS.
